MAIN INDEX TO VOLUME 45

Abbreviations: E refers to editorials. There is a seperate index for abstracts of papers given at the meetings of the British Thoracic Society.

A

Abdomen, upper, surgery of, cough threshold after, 207
ABDUL-HAMEED M. *See* EL KALLA S, 773
ABRAMOV A. *See* RUDENSKY B, 158
ABRAMSON MJ, SAUNDERS NA, HENSLEY MJ: Analysis of bronchial reactivity in epidemiological studies, 924
Acquired immunodeficiency syndrome. *See* AIDS
ADACHI M, IMAI T, TAKAHASHI T: Effect of inhaled leukotriene B_4 alone and in combination with prostaglandin D_2 on bronchial responsiveness to histamine in normal subjects (*Letter*), 158
Adenitis. *See* Mediastinal adenitis
Adenocarcinoma of the lung, adult respiratory distress syndrome after limited resection of, cases, 901
Adult respiratory distress syndrome after limited resection of adenocarcinoma of lung, cases, 901
respiratory distress syndrome: exogenous surfactant treatment? A historical perspective (E), 825
AGNEW RAL. *See* NISAR M, 419
AHMED S, POULSOM WJ: BCG vaccination of schoolchildren in England and Wales (*Letter*), 982
AIDS and diffuse pneumonia: bronchoalveolar lavage via a modified stomach tube in intubated patients, 771
and *Pneumocystis carinii* pneumonia, management of respiratory failure, 140
and UK respiratory physicians: attitudes to confidentiality, infection control, and management, 49
ethics, and the respiratory physician, 283
granulomatous *P carinii* pneumonia in a patient with, 769
treatment of lung disease in, 219
See also HIV
Airflow limitation, chronic, development of, and decline of lung function: non-smokers and smokers in Busselton, Western Australia, 32
limitation, chronic, effect on resting oxygen consumption, 388
obstruction, chronic, different forms, in a general population sample, single breath carbon monoxide transfer factor in, 514
obstruction, chronic, mucus clearance in patients with, effect of forced expirations, 623
obstruction, chronic, non-asthmatic, corticosteroid trials in, 112
obstruction, chronic, non-asthmatic, time course of response to oral and inhaled corticosteroids in, 118
Airway dimensions reduced by altering posture, effect on histamine responsiveness, 530
function and potassium channels: new therapeutic prospects, 213
hysteresis: bronchodilatation induced by deep breaths in relation to transpulmonary pressure and lung volume, 930
obstruction in chronic obstructive airways disease, assessment of reversibility of, 190, (*Letter*), 907
reactivity in atopic patients, effect of inhaled frusemide on early response to antigen and subsequent change in, 377
smooth muscle contractility in vitro, effect of frusemide, 856
Airways disease, chronic obstructive, adverse effect of additional weight on exercise against gravity in (*Letter*), 79
disease, chronic obstructive, assessment of reversibility of airway obstruction in, 190, (*Letter*), 907
nasal, tracheobronchial and bronchoalveolar, clearance of ^{99m}Tc DTPA from, in the guinea pig, 841
obstruction, severe or progressive, in sarcoidosis: bronchoscopic and bronchographic findings in 12 patients, 272
small, disease and parenchymal destruction in surgical lung specimens, 89
AJAO P. *See* KNOX AJ, 856
AL-ADNANI MS. *See* AL-ZAID NS, 878
AL ASHBAL A. *See* EL KALLA S, 773
Alcohol breath testing in patients with respiratory disease (E), 717
AL-HAJJAJ MS. *See* AL-MAJED SA, 846
AL-JABOORI A. *See* ASHOUR M, 210
AL-MAJED SA, ASHOUR M, EL-KASSIMI FA, JOHARJY I, AL-WAZZAN A, AL-HAJJAJ MS, VIJAY R: Management of post-tuberculous complex aspergilloma of the lung: role of surgical resection, 846
Almitrine bismesylate and medroxyprogesterone acetate, effects on oxygenation during wakefulness and sleep in patients with chronic obstructive lung disease, comparison of, 666
bismesylate and oxygen therapy in hypoxic cor pulmonale, 16
AL-SHARIF N. *See* ASHOUR M, 210
Altitude, peak expiratory flow at, 620
ALTMAN JS. *See* WARREN WH, 978
Alveolar haemorrhage, diffuse, associated with progressive systemic sclerosis, case of, 903
macrophage function in smokers, effects of an inhaled corticosteroid, budesonide, on, 362
partial pressures of carbon dioxide and oxygen measured by a helium washout technique, 520
Alveolitis, allergic, extrinsic, and idiopathic pulmonary fibrosis, effect of lung T cells on fibroblasts in, 451
allergic, extrinsic, asymptomatic, transfer of ^{99m}Tc DTPA and bronchoalveolar lavage findings in, 525
associated with sulphamethoxypyridazine (*Letter*), 158
fibrosing, pulmonary gamma interferon production in, 105
fibrosing, vertical gradients of lung density in supine subjects with, 602
AL-WAZZAN A. *See* AL-MAJED SA, 846
AL-ZAID NS, AL-ADNANI MS, GUMAA KA: Collagen of the dystrophic hamster diaphragm, 878
Amyloid, systemic, associated with carcinoma of bronchus, case of, 156
Anaesthesia, local, for fibreoptic bronchoscopy, 474, (*Letters*), 239, 646, 984
nasal, topical, for fibreoptic bronchoscopy (*Letter*), 79
ANDERSON G. *See* ESMONDE J, 239
ANDERSON HR: Trends and district variations in the hospital care of childhood asthma: results of a regional study 1970–85, 431
ANDERSON HR. *See also* MITCHELL EA, 176
ANDERSON PB. *See* MORCOS SK, 623
ANDREWS JM. *See* BALDWIN DR, 401
Aneurysms. *See* Aortic aneurysm
ANGELINI GD. *See* BRYAN AJ, 655
Antibodies to cytoplasmic components of neutrophils (*Letter*), 158
Antigen, early response to, and subsequent change in airway reactivity in atopic patients, effect of inhaled frusemide, 377
exercise, and histamine challenges, perception of breathlessness during bronchoconstriction induced by, 914
Antigens, surface, distinguishing "naive" and previously activated lymphocytes in bronchoalveolar lavage fluid, expression of, 391
α_1 Antitrypsin gene and chronic lung disease, 759
Aortic aneurysm, abdominal, atheromatous, causing recurrent and fatal haemoptysis, case of, 568
Apnoea. *See* Sleep apnoea
APPLEYARD M. *See* LANGE P, 22, 579
ARROWSMITH JE. *See* WEBB AR, 474
Arterial lesion and collateral pathway distribution in the pulmonary hypertension of congenital heart disease, computer aided reconstruction, 586
Arteriovenous fistula, intercostal, due to pleural biopsy, 976
Artificial ventilation: history, equipment and techniques, 753
Asbestos and other fibres, role in the development of diffuse malignant mesothelioma (*Review*), 649
ASHBY JP. *See* BALDWIN DR, 401
ASHKENAZI J. *See* RUDENSKY B, 158
ASHOUR M: Modified muscle sparing posterolateral thoracotomy, 935
ASHOUR M, PANDYA L, MEZRAQJI A, QUTASHAT W, DESOUKI M, AL-SHARIF N, AL-JABOORI A, MARIE A: Unilateral post-tuberculous lung destruction: the left bronchus syndrome, 210
ASHOUR M. *See also* AL-MAJED SA, 846; EL-KASSIMI FA, 565
Aspergilloma, complex, post-tuberculous, management of: role of surgical resection, 846
Aspergillosis, bronchopulmonary, allergic, controlled trial of natamycin in, 447
Aspergillus and *Pseudallescheria boydii*, mixed allergic bronchopulmonary fungal disease due to, case of, 489
Asthma, acute, children admitted to hospital with, time course of change in oxygen saturation and peak expiratory flow, 438
acute severe, changes in hospital management by thoracic and general physicians in Birmingham and Manchester during 1978 and 1985, 130
acute severe, effects of exercise on gas exchange in patients recovering from, 262
bronchial hyperresponsiveness in young students of southern China, 860
deaths from, and prescribed fenoterol, in New Zealand, 1977–81, case-control study, 170, (*Letter*), 645
effect of caffeine on histamine bronchoprovocation in, 630
formoterol, a new long acting $beta_2$ agonist, compared with salbutamol in treatment of, 259
hard metal: cross immunological and respiratory reactivity between cobalt and nickel? 267
in children, hospital care of, trends and district variations: results of a regional study 1970–85, 431

in children, tidal breathing and dosimeter methods of assessing bronchial responsiveness, does the outcome depend on age? **199**
in children, why are hospital admission and mortality rates higher in New Zealand than in the UK? **176**
ipecacuanha: an old lesson, **974**
mild, inhaled corticosteroids in, **733**
mild, morphological integrity of the bronchial epithelium in, **12**
nocturnal, and posture (*Letter*), **647**
occupational, due to tea dust, **203**
occupational, in a pharmaceutical worker exposed to hydralazine, **980**
treated in an emergency department, use of a management plan, **702**
See also Wheeze
Asthmatic patients, benefits and problems of a physical training programme for, **345**
subjects in New Zealand, reduced selenium in, **95**
ATKINSON M. *See* PEARCE N, **170**
Atopic patients: effect of inhaled frusemide on the early response to antigen and subsequent change in airway reactivity, **377**
Atopy, bronchial hyperresponsiveness and its relation to, a general practice based survey, **866**
AUBERT-TULKENS G. *See* RODENSTEIN DO, **722**
AUGER WR. *See* MOSER KM, **983**
AVERY AJ. *See* DENNIS JH, **728**
AVIDOR I. *See* FINK G, **643**
AWOTEDU AA, OTULANA BA, UKOLI CO: Giant lymph node hyperplasia of the lung (Castleman's disease) associated with recurrent pleural effusion, **775**

B

Bacterial infections, respiratory, and modern molecular biology, **552**
products, effect on neutrophil migration in vitro, **276**
BAILEY J. *See* WILKINSON PD, **456**
BALDWIN DR, ANDREWS JM, ASHBY JP, WISE R, HONEYBOURNE D: Concentrations of cefixime in bronchial mucosa and sputum after three oral multiple dose regimens, **401**, (*Letter*) **982**
BALDWIN DR, ORMEROD LP, MACKAY AD, STABLEFORTH DE: Changes in hospital management of acute severe asthma by thoracic and general physicians in Birmingham and Manchester during 1978 and 1985, **130**
BARBER PV, *See* BURT PA, **765**; O'DRISCOLL BR, **984**
BARENTSZ JO. *See* MORSHUIS WJ, **154**
BARER D. *See* VENKATESAN P, **254**
BARNES DJ. *See* GOLDMAN JM, **76**
BARNES PJ: Molecular biology of receptors: implications for lung disease, **482**
BARNES PJ. *See also* BLACK JL, **213**; NICHOL G, **694**
BARON JA. *See* FALCONER AR, **126**
BARONTI A. *See* VERDIANI P, **377**
BARQUIN N. *See* SELMAN M, **451**
BASHIR Y, BENSON MK: Necrotising pneumonia and empyema due to *Clostridium perfringens* complicating pulmonary embolus, **72**
BASHIR Y, GRAHAM TR, TORRANCE A, GIBSON GJ, CORRIS PA: Nutritional state of patients with lung cancer undergoing thoracotomy, **183**
BASSETTI D. *See* DI PERRI G, **302**
BATEMAN N. *See* O'DOHERTY M. **460**
BATEMAN NT. *See* DAVIDSON AC, **239**, **646**
BAUDOUIN C. *See* MORCOS SK, **628**
BAUDOUIN SV, WATERHOUSE JC, TAHTAMOUNI T, SMITH JA, BAXTER J, HOWARD P: Long term domiciliary oxygen treatment for chronic respiratory failure reviewed, **195**
BAUDOUIN SV. *See also* MORCOS SK, **628**
BAUMANN M. *See* STRANGE C, **300**
BAXTER J. *See* BAUDOUIN SV, **195**
BAYSTON SM. *See* GOLDMAN JM, **939**
BCG treatment, intravesical, pulmonary disease following, cases of, **709**
vaccination of schoolchildren in England and Wales, **83**, (*Letters*), **646**, **982**
BEACH JR. *See* DENNIS JH, **728**
BEASLEY R. *See* FLATT A, **95**; PEARCE N, **170**, **645**; TOWN I, **702**
Beclomethasone dipropionate, inhaled, and oral prednisolone compared in non-asthmatic chronic airflow obstruction, **112**
dipropionate, inhaled, 2 mg, morning serum cortisol concentrations after, in normal subjects: effect of a large spacing device, **740**
dipropionate, particle size produced by two nebulisers and two spacing devices, **109**
BEECHING NJ. *See* ROGERSON SJ, **239**
BEEKHUIS H. *See* VAN DER SCHANS CP, **623**
Behavioural breathlessness, **287**, (*Letter*), **716**
Behçet's disease, pulmonary thromboembolic, rapidly progressive, treated with cyclosporin, case of, **295**
BELL D. *See* HORNER PJ, **907**
BENNETT JB. *See* TRIGG CJ, **866**
BENSON MK. *See* BASHIR Y, **72**
BENSON-MITCHELL R. *See* PEACOCK AJ, **38**
BEREND N. *See* DUGGAN CJ, **930**
BERGMAN M. *See* FINK G, **643**
BERGSTRAND H, BJÖRNSON A, BLASCHKE E, BRATTSAND R, EKLUND A, LARSSON K, LINDEN M: Effects of an inhaled corticosteroid, budesonide, on alveolar macrophage function in smokers, **362**
BERMAN P. *See* VENKATESAN P, **254**
BERTOLO L. *See* COLACONE A, **630**
BEST JJK. *See* TURNBULL LW, **597**
Beta$_2$ agonist, long acting. *See* Formoterol
BIANCO S. *See* VERDIANI P, **377**
BIDDISCOMBE M. *See* ZAINUDIN BMZ, **469**
BIERNACKI W. *See* TURNBULL LW, **597**

WEINER M, BERNSTEIN IL: *Adverse Reactions to Drug Formulation Agents: a Handbook of Excipients* (1989), **301**
WIDIMSKY J, HERGET J: *Pulmonary Blood Vessels in Lung Disease* (1990), **778**
BORZI RM. *See* MELICONI R, **536**
Botulism: a potentially common problem (*Letter*), **424**
BOUCHONNET F. *See* DOMINIQUE S, **391**
BOULET L-P. *See* TURCOTTE H, **914**
BOULTON J. *See* FENNERTY AG, **42**
BOURGAULT M. *See* KIRSCH CM, **235**
BOYER MJ. *See* TATTERSALL MHN, **81**
BRACHFELD C. *See* MINUTOLI R, **771**
Brachial neuritis: recurrent isolated alternating phrenic nerve palsies, **420**

BRADBEER C. *See* O'DOHERTY M, 460
Brain metastases. *See* Metastases; Metastasis, solitary
BRATTSAND R. *See* BERGSTRAND H, 362
BRAUDE S. *See* TAYLOR H, 66
BRAVO M. *See* SELMAN M, 451
BRAZIER M, LOBJOIT M: AIDS, ethics, and the respiratory physician, 283
Breathlessness, behavioural, 287, (*Letter*), 716
during bronchosconstriction induced by antigen, exercise, and histamine challenges, perception of, 914
Breaths, deep, bronchodilatation induced by, in relation to transpulmonary pressure and lung volume, 930
BRESNIHAN B. *See* GILLIGAN DM, 591
BRETTLE RP. *See* FLEGG PJ, 777
BRITISH THORACIC SOCIETY: Smoking cessation in patients: two further studies by the British Thoracic Society, 835
Bronchial carcinoma, advanced, bronchoscopic cryotherapy for, 509
carcinoma, plasma growth hormone and digital clubbing in, 545
carcinoma, serum leucine-enkephalin and its relation to tumour location in, 9
carcinoma, systemic amyloid associated with, case of, 156
epithelium in mild asthma, morphological integrity of, 12
hyperresponsiveness and its relation to symptoms, sex, age, atopy, and smoking, a general practice based survey, 866
hyperresponsiveness in young students in southern China, 860
infiltration in chronic lymphocytic leukaemia causing recurrent localised pneumonia, case of, 570
mucosa and sputum, cefixime concentrations in, after three oral multiple dose regimens, 401, (*Letter*), 982
reactivity, analysis of, in epidemiological studies, 924
reactivity in non-asthmatic subjects, effects of hypothyroidism on, 947
responsiveness in children with asthma, tidal breathing and dosimeter methods of assessing, does the outcome depend on age? 199
responsiveness to histamine in normal subjects, effect of inhaled leukotriene B_4 alone and in combination with prostaglandin D_2 (*Letter*), 158
Bronchiectatic segments in patients with chronic sputum production, comparison of thin section computed tomography with bronchography for identifying, 135
Bronchiolitis, disturbance in respiratory mechanics in infants with (*Letter*), 79
Bronchoalveolar lavage findings and transfer of ^{99m}Tc DTPA in asymptomatic extrinsic allergic alveolitis, 525
lavage findings in a patient with organic dust toxic syndrome, 713
lavage fluid, expression of surface antigens distinguishing "naive" and previously activated lymphocytes in, 391
lavage in patients with mild and severe rheumatoid lung disease, 591
lavage via a modified stomach tube in patients with AIDS and diffuse pneumonia, 771
nasal, and tracheobronchial airways, clearance of ^{99m}Tc DTPA from, in the guinea pig, 841
Bronchoconstriction induced by antigen, exercise, and histamine challenges, perception of breathlessness during, 914
induced by hypertonic saline, role of histamine release in (*Letters*), 78, 571
Bronchodilatation induced by deep breaths in relation to transpulmonary pressure and lung volume, 930
Bronchodilator responses and deposition patterns of inhaled salbutamol, 469
Bronchography compared with thin section computed tomography for identifying bronchiectactic segments in patients with chronic sputum production, 135
in assessment of patients with lung collapse for endoscopic laser therapy, 503
via the fibreoptic bronchoscope, suitability of and to Iotrolan 300 in, 628
Bronchopulmonary fungal disease, mixed allergic, due to *Pseudallescheria boydii* and Aspergillus, case of, 489
Bronchoscope, fibreoptic, bronchography via, suitability of, and tolerance to Iotrolan 300, 628
Bronchoscopic and bronchographic findings in 12 patients with sarcoidosis and severe or progressive airways obstruction, 272
cryotherapy for advanced bronchial carcinoma, 509
Bronchoscopy, fibreoptic, effect on pulmonary function, 38
fibreoptic, local anaesthesia for, 474, (*Letters*), 239, 646, 984
fibreoptic, topical nasal anaesthesia for (*Letter*), 79
fibreoptic: value of washings and brushings in the diagnosis of lung cancer, 373
Bronchus, mainstem, unilateral narrowing of: biphasic spirogram, 637
BROPHY C. *See* MIER A, 750
BROWN I. *See* HELBERT M, 45, 907

INDEX TO SUMMARIES OF THE PROCEEDINGS OF THE BRITISH THORACIC SOCIETY

Only the first author is indexed.

A

Acyclovir: varicella-zoster infection in adult cystic fibrosis, **813**
Adult Respiratory Distress Syndrome: effect of cardiopulmonary bypass on cytokine release, **798**
Respiratory Distress Syndrome: endotoxin and iron redistribution, **809**
Respiratory Distress Syndrome: quantitative features, §**19**
AGIUS RM: Respiratory symptoms in pharmaceutical workers manufacturing opiates, **319**
AHMEDZAI S, *et al*: Role of palliative medicine in management of advanced respiratory disorders, **804**
AIDS: recurrent *P carinii* pneumonia in, **305**
See also Human immunodeficiency virus; *Pneumocystis carinii* pneumonia
Airflow: limitation, chronic: test of functional capacity, **781**
obstruction, chronic: beclomethasone dipropionate effect on bronchial response to histamine, **813**
use of xamoterol, **816**
Airways: chronic airflow limitation: atypical chest pain, **327**
disease, chronic obstructive: bone turnover during prednisolone therapy, **791**
disease, chronic obstructive: corticosteroid use in West Midlands, **791**
disease, chronic obstructive: cutaneous response to beclomethasone dipropionate, **794**
disease, chronic obstructive: inhaled salbutamol dosage, **344**
disease, chronic obstructive: is oxygen a renal vasodilator? **787**
disease, chronic obstructive: long term oxygen therapy, **820**
disease, chronic obstructive: oxygen in hypoxic COAD, **787**
disease, chronic obstructive: regular nebulised terbutaline, **344**
disease, chronic obstructive: reversibility testing and home nebuliser, **343**
disease: nasal intermittent positive pressure ventilation, **793**
epithelium: characterisation from chloride channel, **808**
limitation: steroids in assessment of reversibility, **817**
obstruction: chronic, bronchial responsiveness to histamine and distilled water, **812**
obstruction: computed tomography and sputum production, **326**
obstruction: subjective and objective measurements, **811**
resistance: bronchodilation detected by interrupter technique, **340**
responsiveness: failure to detect diurnal variation with methacholine, **819**
smooth muscle: G protein in pharmacomechanical coupling, **309**
smooth muscle: inositol trisphosphate mass, **331**
smooth muscle: phorbol myristate acetate responses to cholinergic nerve stimulation, **309**
smooth muscle: potassium channel activation, **308**
Albumin: potential disease marker in BAL fluid, **808**
ALFAHAM M, *et al*: A study of *Aspergillus fumigatus* lung disease in cystic fibrosis patients in S Wales: I. Use of serum IgG to AF as a marker of AF disease; II. Evidence of increased exposure to AF among CF patients with substantial lung disease, **814**
AL JARAD N, *et al*: Bronchoalveolar lavage profile and ^{99m}TcDTPA clearance as prognostic factors in asbestos exposed subjects with and without asbestosis, **330**
AL JARAD N, *et al*: Lung crackle characteristics determined by computed lung sound analysis, **779**
ALLAN MA, *et al*: Accuracy of oximetry in the investigation of the sleep apnoea-hypopnoea syndrome, **336**
ALLEN MB, *et al*: Sleep apnoea in chronic bronchitis and emphysema, **789**
ALLEN MB, *et al*: Is a symptom based questionnaire useful in the diagnosis of sleep apnoea-hypopnoea syndrome? **789**
ALLEN MB, *et al*: Changing patterns of tuberculosis in Edinburgh, **821**
Allergic rhinitis: intranasal budesonide in, **336**
ALTON EWFW, *et al*: Characterisation of a chloride channel from airway epithelium, **808**
Alveolar macrophages: hypoxia primed for TNF and IL-1 release, **807**
neutrophil mediated injury to epithelial cells, **321**
targetting of ^{99m}Tc-DTPA using APE nebuliser, **823**
Alveolitis, cryptogenic fibrosing: environmental dust exposure, **783**
cryptogenic fibrosing: lung function and pulmonary haemodynamics, **788**
cryptogenic fibrosing: NORs in bronchiolar lining cells, **784**
fibrosing: disease activity in systemic sclerosis, **823**
Aminophylline, intravenous: role in acute severe asthma, **341**
reversal of nifedipine adverse effects in cor pulmonale, **328**
Amoxycillin: v cefaclor in treatment of bronchitis, **325**
ANDERSON G, *et al*: Double blind comparison of the efficacy and tolerance of clarithromycin and erythromycin stearate in the treatment of community acquired pneumonia, **793**
ANDERSON HR, *et al*: Why are hospital admission and mortality rates for childhood asthma higher in New Zealand than in the United Kingdom? **307**
ANDERSON K, *et al*: Atmospheric air sampling and implication for estimation of antigen exposure in pig breeders, **320**
ANDERSON K, *et al*: Clinical features and management of allergic disease in seafood processors, **802**
ANDERSON R, *et al*: Investigation of the effects of oral administration of vitamin E and β carotene on the chemiluminescence responses and the frequency of sister chromatid exchanges in circulating leucocytes from cigarette smokers, **321**
L-Arganine. *See* L-NMMA
ARROWSMITH J, *et al*: Routine microbial investigation in community acquired pneumonia: does it help patient management? **324**
Aspergillus fumigatus: lung disease in cystic fibrosis, **814**
Asbestosis: BAL profile and ^{99m}TcDTPA clearance, **330**
Asthma, acute severe: atrial natriuretic factor, **818**
acute severe: hydrocortisone myopathy in, **306**
acute severe: intravenous aminophylline in, **341**
acute severe: response to ipratropium bromide, **794**
airways effects of inhaled chlorbutol, **343**
albumin as disease activity marker in BAL fluid, **799**
aspirin induced: urinary leukotriene E_4 concentrations, **797**
Asthmalog: patient/doctor communication, **342**
atopic: genetic linkage and chromosome 11, **800**
atrial natriuretic factor and histamine responsiveness, **795**
atrial natriuretic peptide and exercise, **339**
beclomethasone dipropionate effect on airway inflammatory cell populations, **799**
beclomethasone dipropionate effect on bronchial hyperreactivity in, **786**
casualty assessment at district general hospital, **818**
cetirizine and PAF induced bronchoconstriction, **797**
childhood: evaluation of transit time, **797**
childhood, hospital admission and mortality rates in UK and New Zealand, **307**
childhood: morbidity from undertreatment, **783**
childhood: respiratory symptoms in Birmingham schools, **783**
childhood: responses to exercise and terbutaline, **343**
childhood: use of dry powder inhalers, **818**
compliance monitor for inhaled aerosol therapy, **818**
corticosteroids: effect on BAL fluid inflammatory cells, **329**
daily peak flow expiratory flow rate monitoring, **341**
dietary sodium in, **308**
diurnal variation and perception, **795**
effect of cetirizine on exercise induced bronchoconstriction, **332**
effect of frusemide inhalation on methacholine and AMP induced bronchoconstriction, **331**
effect of frusemide on AMP and histamine induced bronchoconstriction, **333**
emergency department management plan, **343**
exercise effect on nasal potential difference, **805**
exercise induced: salbutamol in, **796**
fenoterol and deaths in New Zealand, **308**
free radical activity in, **799**
frusemide, inhaled, inhibits exercise induced asthma, **799**
GR32191 effect on allergen induced late phase response, **798**
histamine release in isolated large airway segments, **309**
immunopathological comparison of matched BAL and biopsy samples, **330**
in boiler operators, **319**
in the community, **308**
increased mortality due to labelling change, **800**
inhaled corticosteroids, **330**
inhaled sodium metabisulphite and tachyphylaxis, **786**
leukotriene E4 enhances histamine responsiveness, **790**
metabolic and ventilatory adaptations to PT, **313**
metacholine challenge on power spectra, **807**
methotrexate in steroid dependent, **306**
nasal and pulmonary resistance in supine posture, **314**
neuropeptide containing nerves in humans, **786**
nocturnal: combined vagal and alpha sympathetic blockade, **332**
nocturnal: salbutamol reduces bronchoconstriction, **789**
nocturnal: sleep quality and daytime cognitive performance, **338**
nocturnal: terfenadine in, **795**
objective sleep quality, **789**
occupational: epidemiology in W Midlands and Finland, **802**
occupational: haemolytic anaemia in, **802**
occupational: in prawn processors, **802**

occupational: polyethylene shrink wrapping in, **320**
occupational: respiratory symptoms in opiate manufacturing, **319**
occupational: surveillance scheme, **320**
occupational: threshold values for late asthmatic reactions, **319**
patient selection in trials, **816**
platelet activating factor induced bronchoconstriction, **790**
potassium channel activation in airways smooth muscle, **313**
prevalence in Tokelauan children, **319**
profile of hospital admissions, **818**
propranolol and diurnal peak flow variations, **795**
recovery from voluntary hyperventilation, **312**
red blood cell sodium transport, **799**
reversibility of late reaction by β_2 agonists, **798**
self administration of inhaled β agonist drugs, **343**
sulphidopeptide leukotrienes and airways responsiveness to histamine, **790**
TXA_2 formation following inhaled PAF, **790**
Atrial natriuretic peptide: effect of inspiratory threshold loading, **806**
natriuretic peptide: release in obstructive sleep apnoea, **339**
response to exercise in asthma, **339**
AYRES JG, *et al*: High incidence of respiratory symptoms in Birmingham school children in the UK, **783**
